

Product tips

How to make Loofah soap bars?

1. select a round cast that matches the size of your loofah
2. clean the cast well and close it on one side
3. rinse the loofah with hot water and squeeze out any excess water
4. stuff the loofah into the cast
5. melt the moulding soap and then add the colouring and fragrance according to the recipe
6. pour the soap into the cast until the loofah is completely covered
7. allow the soap to cool down completely
8. remove the soap from the cast
9. cut the bar into handy sizes using a sharp knife
10. pack the bars in transparent film
