

Product tips

Hydro-Lacquer for glas VER-01000 - VER-01xxx

Purpose:

Surface refinement of glass and ceramics -
dishwasher safe

Gloss level: mat

Colour shade: colourless and coloured

**Pre-treatment of surface:**

Good paint-bonding and suitability for dishwasher is only ensured on purified surface, which must be free of dirt and surface agents. Pre-treatment by dishing with rinsing agent in the dishwasher or by hand, then washing-up with (distilled) water. After cleaning the parts should only be touched wearing gloves.

Processing:

Stir lacquers very well before using them. Lacquer the parts by dipping in or suffuse with lacquer. It is also possible to paint (with a brush), stamp (with a sponge) or spray the parts.

Drying:

Flash-off: ca. 15 min, depending on size of the objects

Minimum 30 min. at max. 150°C in oven

Non-adherence of this drying conditions degrades adhesion and the suitability for dishwasher.

Storage/storage life:

Keep in a dry place, at room temperature.

Stable in original sealed hob bock max. for 12 month .

Safety advice:

Comply with the national rules and regulations and follow the safety data sheets. Take care for sufficient ventilation.
